DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 41,47,54-68 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 41,47,54-68 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: explicit reaction conditions for claimed reaction steps. Many steps recite: "converting, under sufficient conditions." No explicit conditions set forth for the reaction steps. This is indefinite. The structures in the claims are stereospecific and stereoselectivity is relatively unpredictable, and difficult to achieve. Therefore the recitation of "under sufficient conditions" renders the claims indefinite under 35 USC 112, 2nd paragraph. Critical reaction steps must include explicit conditions but here, applicant's specification explains the difficulty of the sulfur at position 22 and while the claim shows the sulfate in the final construct, claim 41, for example, does not indicate with specificity, the conversion step need for stereospecificity (see specification page 4). The claims are missing reaction conditions for critical reaction steps.

Telephonic agreement with attorney was not reach to resolve 112, 2nd paragraph rejection.
